KODAK HOUSE,
HORNBY ROAD, FORT,
BOMBAY, 6th Octr. 1930

CA 1348

My dear Madhava Rau,

I acknowledge your letter of the 27th September.

(2) I am sending you herewith a consolidated statement of Credits and Debits, giving the figure due to Mysore. This is on the basis of the basic year 1928-29. This indicates generally that the position of Mysore is extremely favourable as even if every margin of error in the calculation of the figures were allowed for, a very substantial sum must come to Mysore.

(3) I do not know whether in the detailed discussion, the question of the standard and scale of administration in Mysore or other States will be discussed. I have worked out the position with regard to the Police Force for Mysore for the year 1926-27. I should like a column to be added by your office with respect to 1928-29 and also to explain whether the standard rates of salary in Mysore for various classes of policemen are much lower than those prevailing in Madras Presidency.

(4) As you desire that the base should be for three years actual and two years revised and budget estimates, i.e. five years, I am engaged on working out the figures on this basis.

(5) But all this work would be thrown away until I have a definite reply to the comments, which I have made with

regard to Customs and Salt already sent to you. Your letter covers very few of them.

(6) I have also not received from you the figures with regard to Income Tax in Mysore of the actual collection, and what the collection would be if the tax were levied and collected on the British basis.

(7) I understand, according to the Government of India despatch, that it is intended to keep both the Customs and the Excise Duty on imported stuff, such as kerosene and petrol, in Imperial hands so far as the provinces are concerned. Until there are some preliminary discussions, which disclose which way the wind is blowing, and what the position would be as between the British provinces and the Government of India, it would not be very helpful to work out the position of the States on the basis of the Provincial Governments. But I have no doubt that would become ultimately necessary.

(8) Sir M. M. Ismail had talked with me before he left and he referred to certain communications, which you have received from the Special Organization in connection with the Princes Chamber. If these communications refer directly or indirectly to what I am doing, I shall be much obliged if you will request the Dewansaheb to have a copy sent to me.

(9) I consider that substantial credit will be given to the States in respect of Customs as well as Duty on Kerosene Oil and Petrol. In view of this I consider the figures given by you under Kerosene and Petrol as unsatisfactory, i.e. as an under-statement of the imports in Mysore. It would be

desirable to have your office work out a table taking the actual figures as supplied by you and consumption figures on the basis of population taking all-India consumption. Please let me have this as early as you can.

Yours sincerely,

Mann Subedar

Dear Sir,

I am desired to request you to kindly furnish a statement of actual collections under Income-tax in Mysore during the last 3 years (1927-28 to 1929-30) showing also against each year, what the collections would be if the tax were levied at the rates in force in British India. This information is required in connection with the preparation of the Economic case of Mysore in relation to British India and I am to request for a very early reply.

My dear Madhava Rau,

Further to my letter dated 6th instant, as desired by you, with regard to the basic year, I am sending afresh a statement of Credits and Debits with such detail and accuracy as is possible at this stage. I shall be obliged if you will set some one in the office to check up the arithmetical portion of this statement.

1) You will notice that the whole calculation is based here on the population basis, which seems to me to be the only available basis to go upon. Any attempt to include the Customs Duty on the basis of your trade statistics would be misleading and would yield results, I am afraid, actually less than those which are shown by the population basis.

2) May I again remind you to let me have such notes as you have received from the Princes Organization to enable me to gauge the trend of opinion and, in particular, to fix the further list of Debits, which the British Government are claiming and which may have been indicated in the correspondence of the Political Department with the Special Organization.

3) I shall be obliged if you will write officially to the Government of India and ascertain in the case of opium the cost of out-turn and transport charges of the Government of India for 1928-29, 1929-30 and the approximate charges for 1930-31, to enable us to complete the Statement No.5.

Yours sincerely,

		Total(nett) receipts	29,38,76,065

Total revenue (nett) from Railways for India & Burma for five years	Rs.29,38,76,065
Therefore, average for one year	Rs. 5,87,75,213
Population of India & Burma	318,942,480
Population of Mysore	5,97[illegible], 34
Therefore Mysore's population is 1.87% of that of India & Burma	
Mysore's claim will be 1.87% of the revenue derived from India & Burma	Rs. 10,99,096

Mysore's earning from Railways must be deducted from this to reach nett claim as Mysore could not get its weight in population in the total and separately. The earnings of other States from Railways would also have to be considered in order to be accurate.

Statement No.8.

M I L I T A R Y.

The military expenditure of Government of India has been as follows:-

Year.	Gross expenditure.	Receipts.	Nett expenditure.
	Rs.	Rs.	Rs.
1926-27	60,91,00,000	4,94,00,000	55,97,00,000
1927.28	56,34,00,000	1,55,00,000	54,79,00,000

1930-31(Budget)	57,97,08,000	3,62,08,000	54,35,00,000

Total nett expenditure for five years Rs. 275,31,00,000

Therefore, average for one year Rs. 55,06,20,000

British Indian population 247,003,293

Expenditure per head in British India Rs. 2/3/8

Expenditure per head of British Indian military expenditure calculated on the basis of all-India population of 318,942,480 Rs. 1/11/8

Population of Mysore 5,978,892

Therefore, the contribution of Mysore (Rs.1/11/8 x 5,978,892) Rs. 1,03,38,500

Less amount spent by Mysore on military 19,33,842

Therefore, nett liability of Mysore in respect of military is Rs. 84,04,658.

Taking 1/3rd in British India as internal security troops, total all-India liability on military expenditure (2/3rds of Rs.55,06,20,000) Rs. 36,70,80,000

Mysore's share will be 1.87% of above Rs. 68,64,396

My dear Subedar,

I am desired to acknowledge your letter of the 24th October forwarding a statement showing how Mysore is likely to stand in respect of her fiscal claims, if the credits and debits were uniformally calculated on the population basis. We also note that you have taken the average of 5 years' figures under Revenue as well as Expenditure, as the basis of calculation.

In your letter of the 6th October, you asked for some statistics re: Income Tax and expenditure on Police. I attach hereto two statements giving this information.

Yours sincerely,

My dear Subedar,

I am desired to acknowledge ~~with thanks~~ your letter of the 24th October forwarding a statement showing how Mysore is likely to stand in respect of her fiscal claims, if the credits and debits were uniformally calculated on the population basis. We also note that you have taken the average of 5 years' figures under Revenue as well as Expenditure, as the basis of calculation. It seems to us that this is about as far as we need go at present with the compilation of figures. The Government of India have not as yet given any indication of their views in the matter, but it is understood that some sort of tribunal will be appointed to lay down the principles upon which the claims of Indian States are to be assessed.

The only useful piece of literature bearing on the subject which we have so far received from the Princes' Organisation consists of some notes prepared by Sir Frederick Gauntlett. I shall send you a copy of these notes at an early date.

In your letter of the 6th October, you asked for some statistics re: Income Tax and expenditure on Police. I attach

Dear Mr. Madhava Rao,

I am in receipt of your D.O. letter No. 1626/C.B. 17-19 dated the 21st instant regarding the total quantities of petrol and kerosene oil consumed in the State, calculated on the basis of all-India consumption. The statistics of coastwise imports of kerosene oil and petrol from Burmah to India during the year 1929-30 are not available. I have therefore addressed to-day the Director General of Commercial Intelligence, Calcutta, to kindly furnish me with the necessary figures. I shall again address you in the matter as soon as I hear from him.

Yours sincerely,

C Ranganatha Rao Sahib

Dear Mr. Ranga Rao,

In continuation of my D.O.letter No:C3.229/30-31 dated the 30th October 1930, regarding the total quantities of petrol and kerosine oil consumed in the State, I enclose herein a statement giving the consumption figures based on the ratio of population of the State to that of all India and the figures showing actual consumption extracted from the statistics of imports furnished by the Railways and those obtained from the Importing Companies. The actual consumption of kerosine oil is closely analogous to the figure obtained on the basis of population while that of petrol is much higher, as may be expected by the existence of the European Coffee Planters, the officials of the Gold Mines, and the Civil and Military Station.

Yours sincerely,
